Comments: Sweet Thunder LV is exposed to Backfired Love LV. This young cow is put together like a brick house. She has so much structure, muscle and balance it is really hard to let her go. She is by M2Thunder which brings in Rifleman and Shadow Jubilee and out of a Bella Rio bred cow called Bella Chex LV. She could be any color and be a stand out cow but she's black as a stovepipe and if you are a smart person who likes black she will fit your program like a glove. Her conformation is flawless,

Comments: Here is about as well bred cow as you will find. She is sired by COOL TEXA which brings in JAMAKIZM (sire of DRAG IRON) and the famous SHADOW JUBILEE (she was at one time the longest horned cow in the breed). On the bottom side you have a daughter out of a son of RC PACIFIC MERMAID. Mermaid has produced more 90" offspring than any other cow in the history of the breed. Her dam is a daughter of the \$50K RC ANNE OAKLEY, a huge 90"ttt CONCEALED WEAPON daughter. You are stacked 90"ttt pedigree with this cow. In 2024 she is exposed to RED IRON (he is now over 100"of total horn,2200 lbs and puts the COLOR on his offspring). American Woman is a great mother/milker and is easy to work around.
